

# CE & UKCA

## CERTIFICATION SERVICES

### FOR YACHT MANUFACTURERS

## Expand Your Global Market Reach with CE & UKCA Certification

Andaman Marine Surveyors (AMS) in conjunction with HPI Verification Services (HPIVS Ireland) offer CE and UKCA certification services for vessels up to 24 meters across South East Asia.

These certifications are essential for Yacht Manufacturers looking to enter the European and UK markets.

### → CE Certification

ensures that your vessel complies with EU regulations, allowing you to import into the European Economic Area (EEA).

### UKCA Certification

is required for vessels entering the UK market, ensuring compliance with post-Brexit standards.

CE certification is also recognized in other international markets, including Australia and New Zealand, providing you with a wider global reach.

Contact Andaman Marine Surveyors (AMS) today to find out how our certification services can assist you in accessing new markets and ensure compliance with CE and the Small Craft (ISO) Standards.
